

Ganesh Kantimahanthi

Visakhapatnam, India 530013 • +917997520851 • knganesh97@gmail.com

SUMMARY

Experienced in developing innovative software solutions that enhance user experience and streamline processes. Demonstrates knack for problem-solving and talent for writing clean, maintainable code. Thrives in collaborative environments and adapts swiftly to new technologies and methodologies.

EXPERIENCE

Web Development Engineer (Freelance), 12/2024 - 02/2025

HumAln Co. Ltd.

- Revamped the front-end for *b-align* using **React**, **TypeScript**, and **Tailwind CSS**.
- Migrated a complex **Django** codebase, ensuring smooth integration and stability.
- Built dynamic, scalable components, and backend features in **React** and **Django**.
- Contributed 48 clean pull requests in a 6-member team, delivering on tight deadlines.

Web Development Engineer (Freelance), 09/2024 - 12/2024

Ashvini Divodasa - Hyderabad, India

- Built a full-stack website using **React.js** (frontend) and **Golang** (backend), featuring booking, scheduling, and payment integration with automatic refunds.
- Developed a custom **CMS** for administrators to manage content seamlessly.
- Integrated **Firebase** for storage and frontend hosting, and deployed backend via **Render**, ensuring smooth and reliable operations.

Programmer Analyst I, 04/2022 - 08/2023

Amazon India - Hyderabad, India

- Developed new features using **Java** and **Spring Boot** for an internal utility website, boosting cross-team productivity by **150%**.
- Debugged client-integrated **Java** codebases, improving system stability and support turnaround.
- Conducted code reviews in **Java** and **JSP**, ensuring quality, and promoting team-wide knowledge sharing.
- Built automation tools in **Python**, increasing team productivity by **50%** through simplified workflows.
- Contributed to **\$10,000 IMR savings** by optimising **AWS** infrastructure and guiding 60+ clients on API rate limiting for peak traffic.
- Collaborated with cross-functional teams and project managers to resolve system issues, and ensure smooth, on-time project delivery.

Tech Administrator, 05/2020 - 02/2022

ChessBase India - Mumbai, India

- Built backend APIs using **Golang**, improving platform performance by **25%**.
- Developed a CMS with **Golang**, enhancing backend efficiency by **400%**.
- Revamped UI/UX with **React.js**, increasing user engagement by **10%**.

SKILLS

- Golang, Python, Java, Spring Boot, and Javascript
- React, Node.js, Typescript, CSS, and HTML
- SQL (Postgres), NoSQL (MongoDB, DynamoDB)
- AWS, Firebase, micro services architecture
- Problem solving, data structures, and algorithms

EDUCATION

Integrated Dual Degree: M.Sc.(Hons.) Mathematics + B.E.(Hons.) Civil Engineering, 01/2019

BITS Pilani - Hyderabad Campus

- Thesis on Differential Equations for Fluid Flow in Pipes
- Design Project on Pipe Network Optimisation through Water Cycle Algorithm
- Study Project on Application of Differential Equations in Structural Engineering

ACCOMPLISHMENTS

- Received 'Customer Obsession' accolade at Amazon
- Received 10 stars for task completions at HumAln
